

# SWTD89 Series Instruction Manual

**Important:** The Disable Pin (attached to the wrist strap) must be inserted into the bottom of the unit in order for the stun to operate. The alarm and light will both function without the Disable Pin inserted.

## Charging the Batteries

1. The rechargeable batteries are already installed. The unit cannot be opened, as this could damage the unit and will void the warranty.
2. Before use, the stun gun will need to be charged for 3-4 hours.
3. Using the included USB charging cord, plug the USB end into the charging port on the stun gun and the other end into your USB charging device (computer, wall or block charger, or car plug).

## Using the Flashlight

1. Slide the Safety/Function Switch located on the side of the unit up to the top position to turn on the LED Flashlight. **\*\*Be careful\*\***, if the Disable Pin is inserted into the bottom of the unit, the stun will work if the Stun Activation Button is pressed.
2. Slide the Safety/Function Switch back down to the middle position to turn off the light.

**Testing the Stun Gun (WARNING:** Do not test fire the stun gun for more than 1 second as this will damage the unit and void the warranty.)

1. Insert the disable pin (attached to the wrist strap) into the bottom of the unit.
2. Slide the Safety/Function Switch (located on the side of the unit) up to the top position. The flashlight will come on and the Stun Warning Light will illuminate.
3. Press the Stun Activation Button located on the side of the unit to test the stun gun. You will both see and hear an electrical charge fire across the top of the unit between the Test Probes. When test firing the unit, do not hold the button down for more than 1 second.
4. Slide the Safety/Function Switch back down to the middle position to turn the safety back on

## Using the Alarm

Slide the Safety/Function Switch located on the side of the unit **down** to the **bottom** position. The alarm will come on. Slide the switch back to the middle position to turn the alarm off.

## Using this product in Self Defense

1. When carrying this unit, we recommend using the Wrist Strap. The Wrist Strap is attached to a disable pin that will prevent an attacker from taking the stun gun away and using it on you. If the stun gun is taken away from you the pin will pull out, preventing it from working.
2. At night we recommend using the flashlight (slide the Safety/Function Switch up to the top position) and shining it in the direction of anyone you think might be a threat.
3. If the person continues coming closer and you feel threatened, you can sound the alarm by sliding the Safety/Function Switch down to the bottom position. This should summon help and scare away the threat.
4. If you need to use the stun gun to protect yourself, slide the Safety/Function Switch to the top position. Touch your assailant's body with the Contact Probes and press the stun activation button.
5. Touching anywhere on the assailant's body will have an effect; however, the maximum effect is achieved in the areas show to the right:
6. When touching the assailant's body, you will not see or hear the electrical charge as you do when the unit is test fired. You can press the stun activation button for more than 1 second, as this will not damage the unit, as it will when being test fired.
7. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

## Effects of the Unit on an Assailant

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun gun can cause no permanent harm. (**NOTE:** The device should not be used for longer than 5 seconds.)

**WARRANTY:** Streetwise Security Products extends a lifetime warranty for defects in materials or workmanship, with the following exceptions:

1. The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.
2. The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.
3. The warranty covers the unit only and does not include any accessories.

**NOTICE:** Purchaser must check and abide by all local laws governing the possession and use of stun guns. In addition, the stun gun must only be used in a lawful manner for self-defense. **NOTE:** Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extreme hot or cold temperatures. Do not use on metal objects.

**Conditions of Sale:** Purchase of this product is an agreement by the purchaser/user to hold all sellers and manufacturers harmless of all liabilities and damages.

**To Obtain Service:** Contact the Authorized Dealer from whom you purchased this unit for a Return Merchandise Authorization. The return unit must be sent postage prepaid and proof of purchase is required. Damage or loss occurring during shipments is not covered by this warranty
